

THE YOUNG RIVER

The Young River brings the New Nashville sound to Europe. With energetic vibes, rocking drums, guitars and feel good banjo, the men combine modern music with a warm love for Tennessee New Country.

Growing up between piles of country records, travelling through the sunny outback and roadtripping together to the southern beaches to make summernights even hotter with their gritty guitar riffs: for many years already the close friends share their passion for the country way of life.

A fast emerging band, taking the stages like a sandstorm. Last tour period The Young River played 50 vibrant shows in Europe: from prime time at international festivals to the Dutch music clubs like De Helling, Hedon, Simplon and Rotown. They shared the stage with bands like The Overslept, Call it Off and Bottles of Love, and were even support act to Country Music Hall of Fame member Charlie McCoy (Nashville, USA).

Their sunny vibes flew over the ocean and their song Dancing in the headlights was even played at the most popular Caribbean radiostation. Spotify added this Cadillac of a track to their popular New Music Nashville playlist. Just like the recently released Ghost Town, which made it into the playlists of over 127.300 listeners. After touring France and international shows, the band is now releasing the next songs and videos of the second EP, which takes their music to yet another level.

This autumn will be extra tumultuous, when the haystack boys of The Young River hit the clubs like Tivoli and Bibelot together with the bluegrass cowboys of The Hillbilly Moonshiners. After that, the flightcases will be packed as the men of The Young River get in their tourbus to be headliner at festivals in Denmark and Germany.
